of it as the same as in 1981 federal tax policy. You give it away and you do not tax the very wealthy and it's all going to trickle down to the little...it's going to make more business and so on. I look at this bill as using that as a very same example. I don't know how many of you realize that today we are paying \$13 billion a month on our federal deficit of \$2.3 trillion dollars. We cannot operate that way in the state and I look at this exemption as one that's leading us down to the road for the very same...which will end up to be the very same example as happened in that level. So I do appreciate the support for the amendment.

SPEAKER BARRETT: Thank you. We have a number of lights on. Let me start again at the top. Senator Wesely, do you...would you care to speak to the...all right, thank you. Senator Higgins, we are speaking to the amendment to the committee amendment.

SENATOR HIGGINS: Mr. President, I would move that we adjourn until 9:00 a.m., April 23rd, tomorrow.

SPEAKER BARRETT: Anything for the record, Mr. Clerk?

CLERK: Mr. President, Enrollment and Review reports 656 and 656A correctly engrossed. (See page 1802 of the Legislative Journal.)

I have amendments to be printed by Senator Chizek to to 261. (See page 1804 of the Legislative Journal.)

New resolution, LR 93, by Senators Rogers and Wehrbein. (Read explanation of LR 93. See page 1803 of the Legislative Journal.) That will be laid over.

And, M. President, an announcement. There will be a Natural Resources Executive Session tomorrow at eight forty-five in Senator Schmit's office.

That's all that I have.

SPEAKER BARRETT: Thank you. Just a comment that we will be starting tomorrow morning exactly at the point we leave off this evening, should the motion prevail.
